In this Vol. 11 of our series of books with the title Women's Health in the 21st Century, we will use the word "fatal" for 2 reasons:

- 1) As a result of their exclusion from the provisions of the Affordable Care Act (ACA), unauthorized Hispanics are going to be disproportionately disabled and killed by conditions and diseases that could have been prevented, if only they had been eligible for the ACA's preventive measures
- 2) As a direct result of that exclusion, America's Emergency Rooms (ERs) are going to be so exceedingly overwhelmed with seriously-ill patients that the ACA's system for providing health care may collapse from bankruptcy " may be fatally damaged

To clarify:

- 1) While the authors of the ACA in our federal government recognized the well-known medical fact that prevention is far less costly than treatment
- 2) They nevertheless excluded an estimated 11.1 million undocumented immigrants, 80% of them Hispanics, from the ACA's provisions, thereby leaving those unauthorized persons no choice but to go to America's ERs for exceedingly expensive treatment of conditions that could have prevented

With regard to denying unauthorized persons the preventive provisions of the Affordable Care Act, we've learned that our presidents and congresspersons are in fact no different from the many American CEOs that have employed unauthorized persons, beginning in 1942:

Their modus operandi has been " and continues to be " to exploit the impoverished humans who reside in Mexico and the other Hispanic countries to the south of Mexico by holding out to them the possibility for obtaining the Holy Grail known as a green card.

Will there be a price for the rest of us Americans to pay for those 72 years, and counting, of exploitation by Wall Street's bankers and CEOs plus Washington's congresspersons and presidents " by the Wall Street-Washington Axis of Power?

It turns out that we will have much more to discuss with regard to the topic immigration of Hispanics to the United States, for the following reason:

Just as our research for Vol. 7 with the title Protecting the Health of Larger Women led us to discover the high rate of obesity among Hispanic immigrants that led us to publish this Vol. 11, our research for this Vol. 11 has caused to discover lots of data for the publication of a Vol. 13, which shall have the title "Immigration: Killing the United States?"

As we shall see in Vol. 13, those 72 years of exploitation by CEOs, congresspersons and presidents have the potential to cause the disintegration " the death " of the union of states that has been known as the United States of America.
